Objective

Motivated Computer Science and Engineering student with strong skills in frontend development, MERN stack, and React. Passionate about building responsive, user-friendly web applications and solving real-world problems using C, C++, and Python. Seeking opportunities to apply technical expertise and grow as a software developer.

Skills

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, TailwindCSS, Bootstrap
- MERN Stack: MongoDB, Express.js, React.js, Node.js
- Programming Languages: C, C++, Python, JavaScript
- Tools: Git/GitHub, Firebase, REST APIs, Next.js
- Other Skills: Problem Solving, Algorithms, Data Structures

Projects

1. Threads Clone
 - Used MongoDB, Express.js, and React for the stack
 - Implemented responsive design with TailwindCSS.
2. MERN Stack Messaging Application
 - Developed a full-stack blogging platform with authentication and CRUD operations.
 - Used MongoDB, Express.js, and React for the stack.
3. E-Commerce Web App
 - Created product listing, cart, and checkout features.
 - Integrated payment gateway and authentication.

Education

Bachelor of Science in Computer Science and Engineering (CSE)
Tejgaon College, Dhaka

Achievements & Activities

- Solved 100+ coding problems on platforms like LeetCode, Codeforces, and HackerRank.
- Participated in college coding contests and hackathons.
- Worked on open-source contributions and GitHub projects.
